SCHEDULE EXTENSION REQUEST FOR THE OU 2 TECHNICAL MEMORANDUM NO. 8 -  
MBA-017-93

Technical Memorandum No. 8, the Revised Phase II RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Work Plan (Bedrock) for Operable Unit No. 2 was originally scheduled to be delivered to the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA) on March 1, 1993.

As per our conversation the week of March 1, 1993, this milestone, Activity #1202142 in Work Package 12021, will be extended to March 15, 1993. This schedule extension is necessary because EG&G did not have a contract in place with the subcontractor in time to complete this task according to schedule. An additional review period by DOE before submittal to the regulatory agencies also contributed to the need for the schedule extension.

This schedule extension is not anticipated to cause other OU 2 milestones to be missed. If you have any questions or would like additional information, please contact A. L. Primrose of Remediation Project Management at extension 8618.

Mr. B. Arnold

M. B. Arndt  
Director  
Remediation Project Management
